The Muhlenberg Experience...

Walking across the Muhlenberg campus you notice the doors, bright red, substantial and distinctive, inviting you to open them. Muhlenberg provided a tremendous amount of opportunities for opening — and closing — doors, a time of leaving the familiar and looking into places you've never been before, a time of choices.

All of the members of the Muhlenberg community feel that Muhlenberg College has a long-standing reputation for being academically demanding on the one hand, but personally supportive on the other. Professors check with their students to make sure they're not having problems, but they don't coddle them. Upperclassmen try to help

underclassmen. Everyone says hello to friends, acquaintances, and even visitors they've never met before.

Having a close-knit community gives the Muhlenberg students a sense of security, yet also allows for enough space to explore their individual selves. With an excellent administration and faculty that puts in a tremendous amount of extra time and effort in for the students, students are given an opportunity to excel without limits in the liberal arts tradition and their major. All of the components that tie Muhlenberg together made the Muhlenberg experience enjoyable and extremely valuable.

Like the unique form and shape of the Center for the Arts, Muhlenberg offers a unique experience for learning and growing with a liberal arts education

In Seegers Union, you can always find representatives from the various groups on campus. Aaron Goach is a very active member in the Muhlenberg community and is either offering membership or pushing a fundraising activity for one of his organizations.

A very familiar scene at the door of the Trexler Library. The Library provides a great place for quiet individual studying or group studying in a seminar or study room.

The small class sizes and great instructors allow classes to move out of the lecture halls. Parent's Plaza is a very common area on campus to find a class discussing various topics, such as philosophy, history, or political science.

The instructors at Muhlenberg offer one-on-one help in the classroom, in the lab, and outside of class. Dr. Smith helps one of her chemistry students in the laboratory with some calculations.

With newspaper in hand and a determined look, Karen Mogendorf takes down some notes. Muhlenberg students are highly motivated and strive to meet with the school's and their own expectations.

The Liberal Arts Experience. . .

The liberal arts tradition allows for a willingness to explore the full range of liberal arts and sciences during the freshmen and sophomore years that can lead to an exciting new discovery about an area of study. A larger potential is also established in a career field that holds the possibility for a lifetime of growth and enjoyment. Muhlenberg creates the potential for opportunity with both the faculty and the system of ''skills'' and "perspectives" guidelines that encourage students to sample the liberal arts and sciences broadly.

Beyond the specific knowledge that Muhlenberg's liberal arts grounding sets

up for an individual, there is also a kind of mental limberness and agility - an ability to adapt to new information, new technology, new situations - that is enhanced through experience across the disciplines that make up the liberal arts. It can lead to greater self-knowledge,and more informed understanding of the world and the events of daily living. The Muhlenberg educational experience strives to free students to think creatively, to help launch a lifetime of thoughtfulness and discovery, and to help students explore ethical questions, social responsibilities and their own system of values.

In the library, studying is done at one of the many spacious tables. Studying and preparing for class is done more easily in the quiet and warm atmosphere within the library.

Chris Baylor focuses on his instructor with full attention. Chris is the treasurer for the newly structured yearbook as well as a student council representative

Muhlenberg. . . Past and Present

Founded in 1848, Muhlenberg College took its present name in 1867 from Henry Melchior Muhlenberg, patriarch of the Lutherann Church in the American Colonies. Henry's sons, who, like their father, were Lutheran ministers, also made their marks in the country's early history. John Peter Gabriel Muhlenberg was with George Washington through the famous winter at Valley Forge. Henry Ernst Muhlenberg was one of America's first scientists as well as the first president of Franklin College, now Franklin and Marshall. And Frederick Augustus Muhlenberg was the first speaker

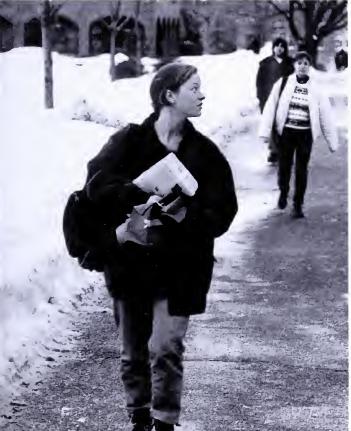

of the United States House of Representatives.

It is against that background that Muhlenberg College has continued its humanistic commitment to a sound education that fosters growth, understanding, and selfawareness. But more than just continuing that liberal arts-based tradition through 37 majors in the humanities, social sciences, and physical sciences, we have developed strong preprofessional programs in business, education, premedical, pretheological, and prelaw studies. Students are also allowed the freedom to create their own programs for courses of study.

For those up and out of class in the morning, Parent's Plaza is a great place to study and enjoy the beginning of the day when most of the Muhlenberg community is in class or still in bed.

Suzanne Schalk makes her way to class on a gloomy winter day with snow in every direction. Suzanne, the yearbook's sports editor, is a successful first year student.

In the Haas College Center, the impressive ceiling and statue of the first floor exhibit the past and present of Muhlenberg College.

In the middle of the 1994 harsh winter, Muhlenberg students still make it to the early morning classes.

In the Red Door Cafe, students are able to meet with friends, socialize, and watch TV. The Red Door Cafe is the site for many of the MAC events at Muhlenberg.

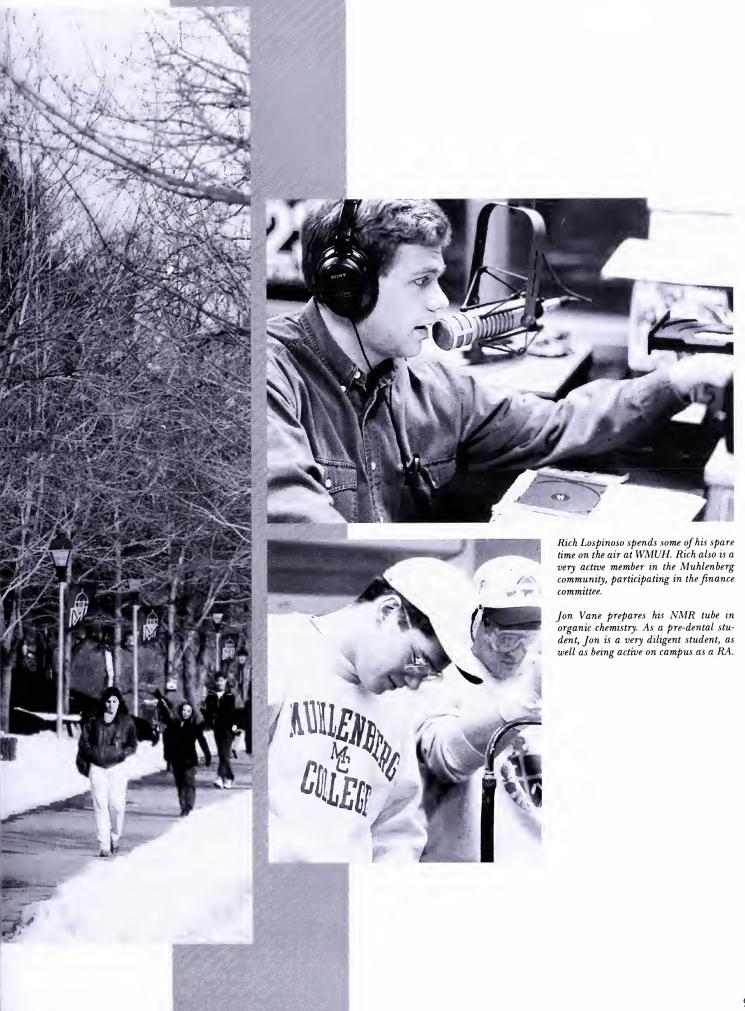

The Muhlenberg Community. .

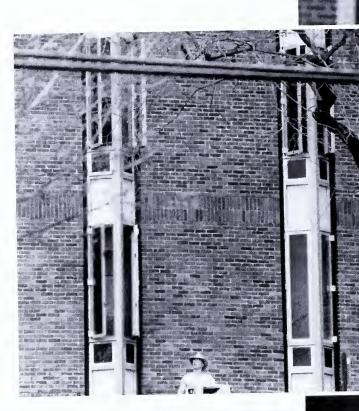

The Muhlenberg Community is composed of a tremendous amount of social choices. Muhlenberg has six national fraternities and four national sororities that all contribute to the extrememly active social calender. On the perimeter of the campus are Muhlenberg's special-interest houses. Every year, groups of students agree on a program or theme and the compete for a College house to live in.

The list of student organizations is long and impressive. The 80 or so officially recognized organizations include many honor societies as well as clubs for everything from international affairs to chours, politics, drama, journalism, student government, skiing, and frisbee. And there are plenty of informally organized groups besides. If you can't find the club or other organization you want, you can always start your own.

The same goes for sports, both intercollegiate and intramural. Muhlenberg is a member of the Centennial Conference, along with Bryn Mawr, Dickinson, Franklin and Marshall, and Gettysburg, among several others. Muhlenberg fields teams in men's football to tennis and golf, and women's tennis and field hockey to lacrosse. Players and teams, are known, supported, and cheered for as the Muhlenberg Mules

On one of the first sunny days at Muhlenberg, Paul Anderson tries catching some rays in his spare time.

Outside of all the studying, students still find time to stay fit using the great facilities in the field house.

Student Life

Student life at Muhlenberg encompasses many different events and group activities ranging from fraterity parties to MAC comedians to community service. Outside of the classroom students find the time to relax and enjoy Muhlenberg as well as finding the time to study. The greeks provide parties almost every weekend for all Muhlenberg students to kick back, relax, and hang out with friends. MAC is becoming more and more active on campus, having comedians, bands, and movies at the Red Door Cafe. On campus students are constantly exercising either for relaxing or different Muhlenberg sports. Many students also have jobs during the school year as anything from a waitress to a ski instructor. Muhlenberg students are extremely motivated and participate in far more than simply studies.

At the GQ, students grab a quick bite to eat and meet with their friends between classes to discuss upcoming tests or just to gossip.

Muhlenberg Defense puts the pressure on at the 20 yard line.

President and Mrs. Taylor wave to the anxious crowd awaiting the start of the homecoming football game.

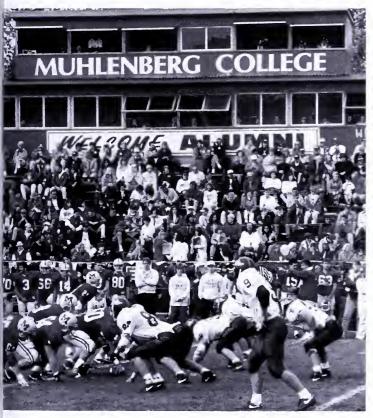

APO shows their pride for their supportive organization and for Muhlenberg in the homecoming parade.

The Mules are on the offensive . . .

Homecoming 1993

Homecoming 1993 started off with an exciting Pep Rally in the fieldhouse with the presentations of the fall sports teams and the announcement of the Homecoming Court. Muhlenberg students showed up in school colors bringing all the spirit that they could muster up. Throughout the Pep Rally, students cheered on, and some even won great prizes with various raffle drawings. Before the football game got off to an explosive start, the Homecoming parade made

its way down Chew Street with many clubs and organizations representing themselves. The parade went very well, with food, music, and concessions, and was a great prelude to the football game. The weekend brought alumni, administration, faculty, staff, students, and parents together to enjoy the great weather and all of the school spirit. Reunion, parties, and small get-togethers were held. The SAA did a fabulous job organizing an exciting weekend.

One of the many Greek floats showing their school spirit in the homecoming parade.

Despite all of the pressure, the Mules remain aggressive.

As the crowd cheers, the Mules push forward.

The Class of 1996's unique parade float

Enjoying themselves at the President's House, several freshmen have time to smile for the camera.

Mike Doyle warmly welcomes the Class of 1997 on behalf of the student body.

Opening Convocation

Once again, Muhlenberg has opened its red doors to its largest class for a consecutive year. President Taylor enthusiastically gave an opening address to the Class of 1997, 468 students. President Taylor expressed what he expected of the new addition to the Muhlenberg

community as well as expressing what should be expected of the Muhlenberg administration and faculty. Mike Doyle, student body president, also gave a warm welcome to the incoming class. Mike was able to calm the excited and anxious freshmen with his accepting tone and caring speech.

During the opening convocation, Dr. Donald Shive, professor of chemistry, was awarded the Donald and Anne Shire Distinguished Teaching Professorship. Established in 1992, the Shire Professorship seeks to promote and recognize excellent teaching among the College's faculty.

Enthusiastically and full of encouragement, President Taylor addresses the Class of 1997 and welcomes back the upperclassmen.

The Class of 1997 were welcomed warmly into the Muhlenberg Community with a great evening at the Taylor's home.

Greek Week 1994

Greek Week this year was fun, tiring, messy, and full of spirit. Through the spirit of each fraternity and sorority, a tremendous amount of Muhlenberg spirit was brought out. The events were well attended by not only those in the Greek community, but by friends and

faculty not involved in the Greek life. The events were exciting and full of competition ranging from the tug-of-war to the pie eating contest to the obstacle course to arm wrestling. The Greek life provided a great way for the Muhlenberg community to relax and have fun.

The Greek men show their might in the arm wrestling event.

A Phi Tau brother breezes through the obstacle course event

eral Sig-Ep brothers show their pride their fraternity and for Muhlenberg.

Alpha-Chi's Lisa Cosiol faces up to the challenge of the pie eating competition.

MAC: Mulenberg Activities Council

The Muhlenberg Activities Council is the student organization in charge of planning on-campus, social events. The club is made up of students of all years, both Greek and independent, and people with a variety of tastes in humor, music, and entertainment.

MAC sponsors many special events over the course of the year. Popular events are Movie Night, Spring Weekend, Senior Week, Homecoming, and holiday celebrations. Various speakers and other unique entertainers like Dave Binder, Carrot Top, and MTV's Jon Stuart visit campus frequently.

Muhlenberg students are the most important part of social life on campus. MAC needs students for ideas, planning, and coordinating events. MAC books some of the most popular headline and upand-coming bands in the country. Laughing can be heard all around campus as MAC presents some of the funniest comedians on tour. MAC provides fun, enjoyment, and social events for

Carrot Top, seen on HBO and MTV, was one of the best comedian events during the year that drew an extremely large crowd.

all of the Muhlenberg Community. It also serves as the best alternative to the Greek Life and Greek events. During the course of a week, at least four MAC events are scheduled to act as a study break on weekdays or night life on the weekends. MAC has a tremendously hard working staff headed by the dedicated Carolyn Harter. Carolyn and her staff strive to expand the already extensive MAC schedule.

Carolyn Harter finds some humor in her hard, demanding position, which is obviously enjoyable.

The Muhlenberg Activities Council. . .

gency appeared on Muhlenberg's onpus in the Spring of 1994, and bught a great night of music to the thenberg Community.

The Muhlenberg-Jefferson School Partnership provides great activities for the children of the Jefferson Elementary School.

A Delta-Zeta sister encourages her little buddy in a relay race.

Jefferson-Muhlenberg Partnership Field Day

One look at the smiles on the efferson children's faces will ut a smile on anyone's face. The Jefferson-Muhlenberg artnership has over 450 Muhlenberg volunteers inolved and has several programs for the Jefferson chillren. The programs focus on naking a difference in the

lives of the Jefferson children, and makes a difference in the programs volunteers along the way. Muhlenberg has expanded to make the Jefferson children feel like part of our community. All of the volunteers bring all the love and spirit that they have with them for every

program. The Jefferson-Muhlenberg Partnership Weekend is of the the biggest, most successful, and most enjoyable programs. Both the children and Muhlenberg volunteers have a tremendous time with each other.

Jon Eager gets caught by the camera with his little buddy taking a rest.

The day provides for activities and time for the children with their big buddies.

Dr. Marx, always interested in the students of Muhlenberg, takes the time to answer an incoming freshman's question.

A new Muhlenberg student and his mom look over the schedule for the day.

The First Big Step. . .

Freshmen June Advising is the first big step for the incoming Muhlenberg students. After the SAT's, after the applications, after the acceptances and rejections, after the major decisions, the Class of 1997 venture to Muhlenberg College in the early summer heat of June to become acquainted with their new home. All are excited, but somewhat nervous

as well. During June Advising, the incoming students get a chance to meet their fellow classmates, the Muhlenberg administration, and the Muhlenberg faculty. After all the ice-breakers and after course selections, the newest addition to Muhlenberg leaves more confident and comfortable with the Muhlenberg community.

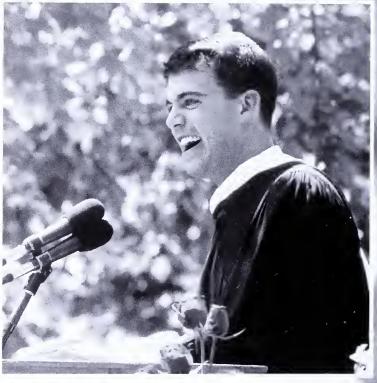

Looking down the list of events for the day, this incoming freshman is eager to start her four years at Muhlenberg.

Amy Brown and her parents enjoy the day at Muhlenberg's freshmen June Advising. . . the first taste of college life.

June Advising helped the incoming freshmen to focus on course selection and answer any questions about the college life they were about to enter.

Mike Doyle has a smile on his face even though he has to say good-bye to his graduating classmates.

Giving a second to look at the camera, this graduate is enjoying her last days at Muhlenberg.

Seniors

The Class of 1994 is a class composed of a diverse group, yet all had a bond to each other and Muhlenberg College. For most, four years ago they walked onto the Muhlenberg Campus on a June day for their first taste of Muhlenberg. After June advising, freshman orientation welcomed them into the Muhlenberg community. During their time here at Muhlenberg, the Class of 1994 has seen many changes, both at their beloved school and in the world around them. At Muhlenberg, many administration positions changed hands, and many improvements and reformations took place. The Class of 1994 actively contributed to all aspects in the Muhlenberg Community, ranging from the Greek Life to Sports to Student Council to Academics. As a whole the Class of 1994 pushed through four years hand in hand, producing an experienced and unique Muhlenberg College graduating class.

Graduation is a time of happiness, sadness, fear, and excitement.

From the President...

Graduating from college is an emotional time for all of us; you, your family and me. I am saddened to see all of you leave; I feel as though I am losing a part of our family. But, I am also proud and excited for all of you as you begin the next phase of your life.

Your parents will know the joy of having a child accept a college diploma, many of you may be the first in your family to do so.

You, on the other hand, may be uncertain and apprehensive about what the

future holds for you. What will I do? Will I get a job? Will I be successful in graduate school? These are all very real concerns. But, you must remain certain that your years at Muhlenberg have prepared you for life and the challenges that lie ahead. I want to share in you happiness in graduating and in the bright promise of your future. I look forward to knowing you as an alumnus of this venerable old college.

From your Peers. . .

In August of 1990, we began what we would come to call some of the best years of our lives. As we watched our suitcases, stereos, and milk crates being lugged up three flights we hardly knew that we were about to meet some of the best friends, some of the best people, we would ever know. We have all worked so hard for this, written papers until four in the morning, watched the mailbox at home for our grades — we have all been lucky to receive a degree, but more importantly the beginning of an education from Muhlenberg College. But if you ask either of us in a few years what we remember about our days here at Muhlenberg, we'll probably remind you

about whem Big Tim's was called The Mule, Pub Nights at Lupo's, free wings with every pitcher at Rookie's, hanging out in the quad, frisbee golf, the Hot Dog Man, watching the tug at Greek Week, Espi Guinto, and mud slides. We feel lucky to have shared such a bond with the Class of 1994. During our four years at Muhlenberg we saw war declared in the Persian Gulf, experienced change as both Muhlenberg and the United States learned to understand new presidents, and of course bid a fond farewell to everyone at "Cheers." We learned how to learn, and we learned how we hope to live. We wish all of you the best of luck in whatever endeavors you pursue. It was a great four years, everybody. Good luck, take care, and most of all, be happy.

Mike Doyle — Student Body President Amy Thornton — Senior Class President

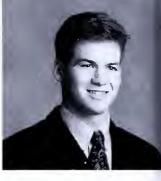

Dr. Mittleman, assistant professor of religion, explains his point of view to John Donati in the Center for the Arts.

The Center for the Arts houses classrooms and learning areas for art, theater, English, music, and religion. This year the CA attained a new sculpture, drawing attention to it with a bright yellow color and exotic shape.

Baldrige lectures to his class and gained the undivided attention of uck Peters. Chuck is one of the topermed students here at Muhlenberg is following in his father's footsteps

Graduation 1994

Muhlenberg College says good-bye to the wonderful Class of 1994. After four years of very close relationships to each other and to the Muhlenberg Community, the Class of 1994 moves on. Many are moving on to graduate schools, and some are entering the work force, both of which are major steps and huge changes within each graduate's life.

Graduation is a time of recognition. Recognition for the Muhlenberg administration, the Muhlenberg faculty, the graduates' parents and family, and most of all the graduating class. With beautiful weather, the Class of 1994 was recognized, commended, and bid farewell on the front lawn of campus. President Taylor beamed with an overwhelming sense of pride, as did all of the graduates. Mike Doyle, Student Body President, expressed to his colleagues his spirit in Muhlenberg and his class, and the enjoyment that everyone in the Class of 1994 experienced over the last four years.

Despite the tears shed, the smiles that every person at commencement expressed

President Taylor applauds the Class of 1994 for four years of excellence.

overwhelm any sadness that might be felt. Muhlenberg was yet another page in everyone's life, and graduation is a turning point. With a beautiful ceremony, the Class of 1994 was dismissed from Muhlenberg College with a tremendous liberal arts education that will help each individual find his or her goal. We said good-bye to a unique class, but they know Muhlenberg will always its red doors open to be visited.

Even as the ceremony became silent as the night, each and every graduate was excited beyond belief.

ous faces of pride acknowledge Presit Taylor's address.

The Haas College Center stands tall and proud, proud of another class of excellence to pass through its doors.

Every graduate will miss Muhlenberg, but at the same time they all are anxious to venture into a new experience.

Chuck Peters and his parents, all full of enjoyment and excitement, pose for a picture to remember this extraordinary occasion.

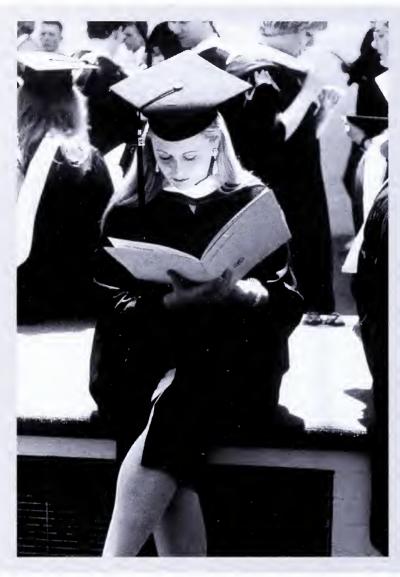

Reading through the commencement program, these graduates aren't too anxious for such a wonderful day to end

Carl Berstein, reporter of the Washington Post during Watergate, shares his philosophy on the media as the commencement guest speaker.

The graduating Class of 1994 join together to once and for all sing Muhlenberg's alma mater.

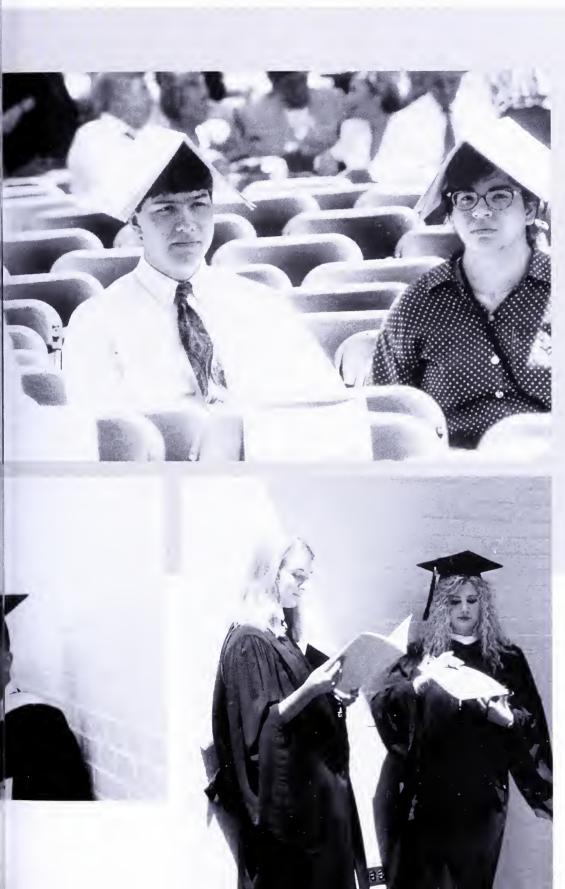

Standing in the CA, the graduates waited for commencement to begin. This was one of the last times the Class of 1994 would gather as a class.

Everyone seems to be captured by the day and the commencement program.

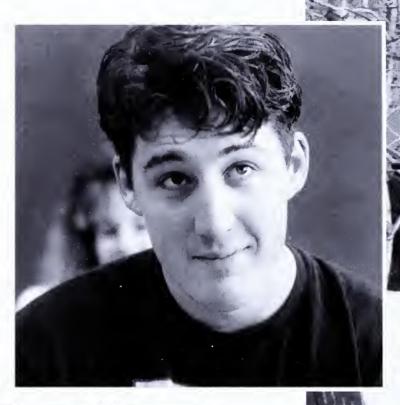

The graduates gathered in the CA started waking up and some grabbed a quick soda before going out onto the front lawn.

Family and friends joined the Class of 1994 on in front of the Haas College Center to show their support and pride.

These graduates stand off to the side in the CA before the being of commencement.

Eric Dettenrieder's attention is held by his professor. Eric is a very active sophomore in the Muhlenberg community.

Even as underclassmen students are very focused and have a very good idea on what their major will be if it has not been declared already.

Underclassmen

The underclassmen at Muhlenberg obviously make up the majority of the student body. Students from the junior, sophomore, and freshman classes all participate in Muhlenberg activities such as varsity sports, intramural sports, and campus organizations. The underclassmen at Muhlenberg are extremely active in campus life and very hard working in the classroom. Many underclassmen hold leadership positions within campus organizations, and the incoming student body president is a rising junior, Jeff Silsbee. During the adjustment of freshman year, students find that they are accepted very easily into the Muhlenberg community. In the years of being a sophomore and junior, students are very well established into the Muhlenberg community with peers, faculty, and administration. With such a close relationship between everyone in the Muhlenberg community, underclassmen, faculty, administration, and seniors are able to work together to make the Muhlenberg community what they want it to be.

A very familiar scene at Muhlenberg. Underclassmen rush to class, even with the snow covered ground.

The Class of 1995

The junior class adds tremendously to the Muhlenberg community. Now upperclassmen, the juniors collectively understand their responsibility to themselves and to the college. The third year of college is a year to bare down and start making major decisions. Juniors are faced with a barage of tests ranging from the MCAT's to the LSAT's to the GRE's. On top of four or even five classes, the juniors often are

involved in many organizations on campus in leadership positions. In addition almost all of the juniors are involved in either varsity sports, IM sports, or the greek life.

With all that the juniors are doing, it isn't the best time to be stressed. However, junior year is just the beginning of a long period full of stress and anxiety. The stress and anxiety are results of the worrying about what lies ahead. In addition to late papers, lab practicals, and final exams, juniors have to start focusing on what to do after leaving

Muhlenberg. The possibil ties after college are endles but the most commonly trav eled road is graduate school Even if a student doesn't pla on graduate school, the n sume writing process an recommendation proces must be done. Juniors als try to get some experience over the summer in research or in the true "work-force." Despite all of the mental frustrations, the juniors sti manage to find some time t have fun either at the fri parties, at small ger togethers, playing frisbe golf, or simply vegging-out

In biology lab, Sean tries to help his partnership with an identification.

Tisha Ford and her group work together in geology class.

Dr. Schmoyer and his class of juniors have some fun in genetics lab.

All Muhlenberg classes brings smiles to its students' faces.

Genetics lab requires patience and team work.

This junior is on her way back to her room with some lunch.

Jason gets some spare time to challenge a friend in the arcade.

Tomo doesn't look too thrilled about dinner.

Rachel strikes a pose with Adam.

Another crowded day in Parents' Plaza.

The Class of 1996

home and workplace.

When the Class of 1996 assembled for the first time together in the CA during freshman orientation of 1993, they were the largest class to walk through Muhlenberg's doors. The Class of 1996 entered a new atmosphere with a new president. President Taylor and the Class of 1996 helped each other adjust to their new

As Sophomores, the Class of 1996 began to become even more active than they were their first year. Several were elected to Student Council, many became RA's, and many help officer positions in various organizations on campus. The year was a year to become more intimate with the Muhlenberg community, now that the adjustment of the freshman year was over. Many students began to focus on choosing a major or two, as well as work-

ing on improving the social life on campus. A good dea of the Class of 1996 rushe and pledged fraternities an sororities to add to the Mul lenberg Experience. It was transitional year between ac justment and the stress of th junior year, which will con sist of major decision makin and a tremendous amount of work. The Class of 1996 ha a very strong bond to th Muhlenberg community an will continue to try a mak Muhlenberg the best colleg experience possible.

Ian Spiegel and Melissa Epstein pool their thoughts to reach a solution in lab.

Josh Rothbard devotes his attention to advice on revising a paper.

Bob DeMuth takes some time to inform himself on what's going on outside of Muhlenberg.

Alicia Zmijewski makes her way through Parents' Plaza on her way to Trumbower.

Parents' Plaza with the remains of some snow in the early spring.

Muhlenberg offers a huge array of classes from advanced organic chemistry to various specialties within the field of music.

Paul Anderson and Shannon Kearney enjoy the morning in Parents' Plaza before classes.

Dan Halewicz works frantically with the NMR in organic chemistry lab to make an identification of the compound that he just synthesized.

Bob, Christine, and Karen stroll past Trumbower on their way to lunch.

Sophomores socializing and having a bite to eat in Parents' Plaza is a very common site in the Fall and Spring.

Lab partners work together closely and intensely to come up with the proper answers for the many questions posed to them in class.

Sophomores engaging in a typical game of frisbee golf.

Close friends, Diana Kayal and Carolyn Harter, manage to get a picture together despite their busy schedules.

The Class of 1997

And after a hectic time of adjusting, the Class of 1997 completed their first year at Muhlenberg College. While going through typical roommate problems and room changes; while figuring out what each professor expects from them; while trying to find the social scene at Muh-

Jessica and Avidon work diligently on their first research paper at Muhlenberg. lenberg, all of the freshmen made it through together. The Class of 1997 is the largest class to enter Muhlenberg, surpassing the Class of 1996 by a good deal. The freshman class is a diverse group compared to the other classes at Muhlenberg, and bring variety and change to the Muhlenberg community. Freshmen year is a very tough year. All freshmen have to handle a major upheaval in their lives, and then

have to learn to settle into their new home. Adjusting to the living arrangement and working conditions are huge hurdles to jump, but the upperclassmen try their best to help out the new members of the Muhlenberg community. All new faces are thrown together and everyone learns to become accustomed to these new faces, coming together as the Class of 1997.

Excitement overwhelms this General Chemistry student as her experiment proceeds favorably.

Kristen Barstow works at the Trexler Library and seems to be enjoying it.

Alan Reiner focuses his attention on his professor.

General Chemistry is a hard but informative course for pre-med freshmen as well as non-science majors.

Sherrine Eid takes her notes for class with great care and detail.

Susan Schalk has lunch in Seegers Union with a close friend.

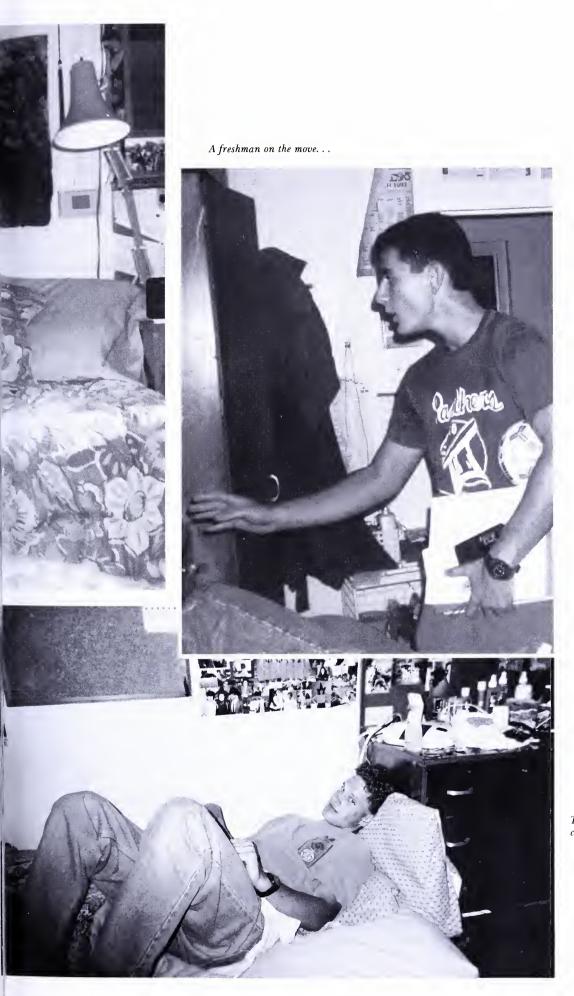

A cute friendship must be forming.

Lab partners work together on setting up a laboratory apparatus.

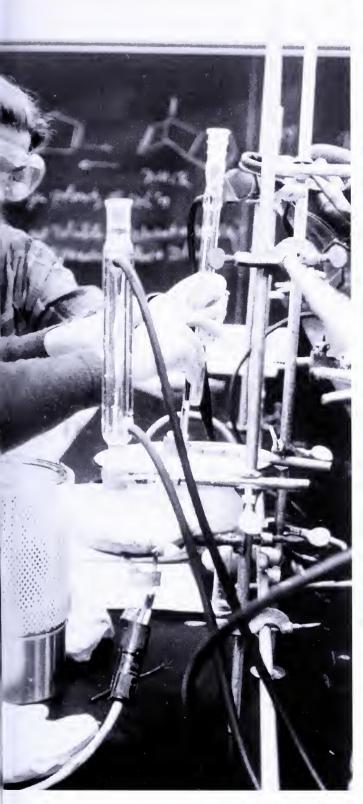

Taking the time off after a hard day of classes.

In the Biology department, students work hands-on in the laboratory at least once a week. One of the many Muhlenberg pre-med students is preparing a sample in genetics lab.

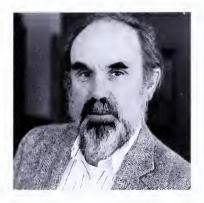

Academics

At Muhlenberg, both faculty advisors and the system of "skills" and "perspectives" guidelines encourage students to sample broadly from the liberal arts and sciences. Beyond the specific knowledge that a solid grounding in the liberal arts and sciences imparts, there is also a kind of mental limberness and agility that is enhanced through experience across the disciplines that make up the liberal arts. It can lead to greater selfknowledge, more informed understanding of the world and the events of daily living, and greater appreciation of the nuances and subtleties of individual decisions and their consequences. In short, study grounded in the liberal arts can, under the best circumstances, "help students develop those capacities of imaginative and critical thinking that make possible humane and responsible living within a free society."

Dr. Baar personally helps her organic chemistry student in setting up a laboratory apparatus.

Arthur R. Taylor President of the College

Richard C. Hatch Dean of the College for Faculty

Administration

Headed by Arthur Taylor, the Muhlenberg administration is efficient, hard working, and caring. This academic year was the second for President Taylor. President Taylor ended the last academic year with Muhlenberg's first "Plan-in." This year, President Taylor, all others in administration, the faculty, and the students participated in helping to bring about the changes that were felt to be necessary from the "Plan-in." Administration is working extremely hard to keep Muhlenberg up to par and in front of the other colleges and universities in the country, as well as trying to bring back some of the old

Muhlenberg traditions. Traditions help unite a community together, which makes the community more productive and harmonious. Every member of the Administrative departments are more than willing to talk with and work with the students on campus to either correct a problem or start a new program for the community. The Muhlenberg Administration works allvear-round to hold the Muhlenberg community together for the students. The Administrative staff works soley to help the Muhlenberg students further their education and achieve their goals.

Art and Sociology and Anthropology

The Art Department has been located in the wellequipped and visually stimulating home on the Center for the Arts since 1976. The department offers a strong curriculum in art history and studio arts, and many of its courses are popular electives for non-majors. Many Muhlenberg art majors have gone on to earn the Master of Fine Arts degree at prestigious universities around the country. The preparation art majors receive here is impressive. The galleria in the Center for the Arts was designed to accomodate largescale national and international exhibitions, as well as frequent faculty and student shows, all of which are open to the public and wellattended.

The Department of Sociology and Anthropology offers majors in sociology, social work, and social science and minors in sociology and anthropology. Students can also pursue indisciplinary majors in social science or human resources administration through Muhlenberg's interdisciplinary studies option. Faculty members are actively involved in research and they encourage majors to take part in independent research, often but not necessarily, related to faculty interests. Course and independent work is also reinforced with field trips and internships in industry, in the probation system, and in human and family agencies.

Joseph E.B. Elliott Art

Several physically fit Muhlenberg students look-on as a weight lifting exercise is explained and demonstrated in the Muhlenberg weight room.

Physical Education

The Physical Education Department is located in Memorial Hall, which houses excellent facilities for the moderate and intense student looking to exercise. The Memorial Hall and the Field House have an indoor track, indoor tennis courts, basketball courts, racquetball courts, weight and exercise rooms, and a swim-

ming pool. The department offers half-quarter courses ranging from tennis to golf to a healthy lifestyles course. The physical education staff tries to push the students to focus on wellness. Mrs. Kunda will be advising a "Substance-Free" living program starting in the Fall of 1993.

Classics and Theatre Arts

At the heart of the study of Classics is that great wealth of experience to be found in the literatures of two great ancient civilizations, Greece and Rome. The department offers majors in classical Greek, Latin, and classics, and one of these majors is often combined as part of a double major with areas as diverse as biology, chemistry, art, or political science. Some majors take advantage of a study-abroad program in Athens, Greece. One clearcut "job" classics can prepare you for is teaching. As a matter of fact, the demand for secondary school teachers of Latin seems to be increasing.

The Department of Theatre Arts is staffed by experienced theatre professionals who collectively create a non-competitive environment where the individual student is allowed to reach his or her fullest creative and intellectual potential. The department's commitment is to a value-centered theatre education with the highest professional standards. Department graduates are working as actors and key creative personnel on Broadway, in film and television, and in major regional theatres across the nation. Students participating in theatre at Muhlenberg go on to a wide assortment of careers, but each takes from the program a valuable life experience.

Joel Colonder's class ends up in a huge pile up after going through an acting exercise, or is this part of the exercise?

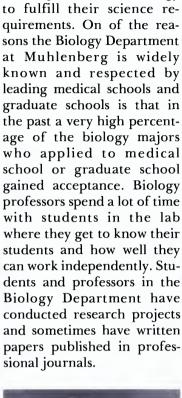

Biology

The Biology Department is fortunate in that we have our own building, excellent equipment, and a faculty that is dedicated to maintaining an up-to-date, high quality cirriculum. The Biology Department instructs biology majors, preprofessional students majoring in natural sci-

Chemistry

Muhlenberg students benefit from a chemistry faculty that is highly qualified, dedicated to providing quality undergraduate classroom and laboratory instruction, and available. Likewise, laboratories are well-equipped by any standard, but remarkably so for a relatively small under-

Dr. Marion W. Smith

graduate college. Chemistry majors get valuable hands-on experience without having to compete with graduate students for highly sophisticated equipment or for professors' time. The faculty's concern for students and for their mastery of an increasingly complex set of principles and skills is reflected by the success of the department's graduates. The department is on the approval list of the American Chemical Society and will certify to the A.C.S. the names of students who complete the basic requirements plus advanced courses in chemistry and related fields.

Dr. Charles E. Russell

Business, Accounting, and **Economics**

In the classroom, the professors full attention of all their students their enthusiasm for the subject their knowledge of the subject.

The Department of Business and Accounting offers academic majors and minors in both fields of study. The Department's academic program is based on a strong liberal arts foundation. Students are given a preprofessional course of study that looks beyond facts and figures, explores broad concepts, and seeks applications to situations in complex organizational settings. Given the rapid and unending rate of change in the Department's disciplines, students are instilled with a desire and ability to continue learning throughout their lives. Overall, the strength of the curriculum is augmented by a Department faculty with rich and diverse educational, business, and research backgrounds and interests.

Muhlenberg is proud to assume a leadership position in entrepreneurial education. The objective of the program is to prepare Muhlenberg graduates to be selfreliant and creative in their career pursuits. We are concerned with developing a program of entrepreneurship which is more well rounded than a strictly small business management curric-

ulum.

The Economics Department emphasizes a balance of academic and career interests. The department's track in general economics emphasizes the source of and possible policy response to major social and economic issues. The finance track addresses the financial concerns of both public and private institutions. The department sponsors a chapter of Omicron Delta Epsilon, the international honor society in economics.

Communications and **Education**

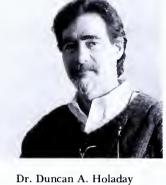

Muhlenberg's approach to communications stresses high standards Muhlenberg has set for education in general. It is based on a strong liberal arts core, and communications is studied both in its function and as a field of employment. The department draws on perspectives from the social sciences, the humanities, and the arts to provide a framework for examining how communications influences our ideas and values. The department's goal is to offer a scholarly and systematic approach to the understanding of communications acts and the symbolic environment through which we all become "humanized" and encultured.

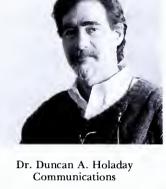

A typical Muhlenberg class...small,

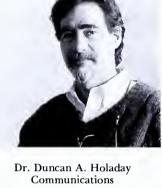

The Education Department at Muhlenberg offers certification programs in elementary and secondary teaching. The strength of the teachercertification programs helps provide a wide range of placement opportunities. Graduates have become teachers in elementary and secondary schools throughout the country. Others have gone on to graduate school in their major fields.

The Muhlenberg College English Department offers a variety of courses and services to a broad constituency of students. The department is responsive to the needs and interests of its students. Many of the courses that we teach are discussion-oriented and consequently rely onand encourage-the expression by students of their own opinions and points of view. The major program in Eng-

lish stresses writing skills and the critical analysis of literary works. The approach is largely-but not exclusivelyhistorical, so that majors will come to understand the ways in which language works to construct as well as reflect cultures. Though the program focuses on American and British works and writers, majors will have opportunities to study other literatures and will encouraged to do so. The careers that English majors characteristically pursue include law, teaching, journalism and publishing, sales and marketing, advertising and public relations, management and administration, public service, religion, and research.

Dr. David Rosenwasser English

Dr. Jill Stephen English

Ian Spiegel walks through Parents' Plaza on the way to his organic chemistry class in Trumbower.

Foreign Languages

The college has a long tradition in teaching foreign languages and literatures. The strength of the department undoubtly accounts for the fact that there are generally 60 to 80 majors and minors in French, German, Russian and Spanish combined. Many of the students double major. They can satisfy their degree requirements and also get the preparation they might need for graduate school or for careers in such areas as communications, foreign trade, business, government, or science and technolgy. The department strongly encourages language majors to spend one or two semesters abroad in a country of their target language. In addition, the department produces plays in the original language, giving students the opportunity to polish their oral skills. These plays are great fun, offer an opportunity for majors and faculty to get to know each other better, and are a unique part of the program.

History

Our faculty members enjoy teaching undergraduates because Muhlenberg seems to attract students who are enthusiastic about learning. In addition to an annual trip to the battlefield at Gettysburg, students visit Colonial Philadelphia, Valley Forge, and historic homes in the Lehigh Valley. And there was a recent student trip to the Soviet Union. The department encourages internships in various political and cultural organizations in the area, which have included Historic Bethlehem, the Lehigh County Historical Society, and Merchants Bank.

Mathematical Sciences

Long known for strong programs in the sciences and mathematics, Muhlenberg offers through its Mathematics Department majors and minors in mathematics, computer science, and information science. The Mathematics major offers several tracks, including preparation for graduate school in the mathematical sciences, and applies mathematics for employment upon graduation. Muhlenberg professors in the mathematical sciences are active in their profession. Expertise of these people includes almost all aspects of computer science, including artificial intelligence, and mathematical areas of statistics, numerical analysis, dis-

crete mathematics, differential equations, analysis, algebra, topology, and geometry. Student research in encouraged, and a number have presented papers in national conferences. There is an active math club, and conseling on courses, graduate schools, and career possibilities is frequently offered. Internships are available, and some majors are hired by the college as special tutors and graders. Recent graduates are employed by various industries, including insurance companies, computer corporations, and other industries. Others are continuing their studies in graduate schools across the country.

Music and Philosophy

Some students major in music in preparation for such fields as teaching, graduate work, church music, music therapy, or orchestra management. For students interested in performing, majors and nonmajors alike, the department sponsors the College Wind Ensemble, the Muhlenberg Singers, the Chapel Choir, the Muhlenberg Opera Group, the College Jazz Ensemble, and student chamber music groups. Private study is offered in voice, piano, classical guitar and organ, as well as the orchestral strings, woodwinds, brasses, and percussion.

Although the discipline of Philosophy may not be familiar to everyone, the issues it deals with are, for everyone has a philosophy. Philosophy accepts the Socratic credo that "the unexamined life is not worth living." Philosophy provides excellent training for those who wish to pursue a career in medicine, law, the ministry, computer science, business, or education, for it provides one with the skills to solve problems, to assess competing points of view, to organize ideas, and to communicate one's views clearly and effectively. The value of philosophy lies not only in the skills one acquires, however, for it also broadens the range of things one can understand and enjoy.

The Muhlenberg mascot can always be found at Muhlenberg sporting events showing school spirit and cheering on the Muhlenberg teams.

Sports

Muhlenberg provides numerous amounts of opportunities for its students to take part in a varsity sport. The Muhlenberg sports are the traditional college and university teams, and play against many colleges in the Lehigh Valley area as well as many out of state. The football team draws a large crowd at all of their home games, as does many of the Muhlenberg teams playing on our turf. Most teams participate very successfully in tournaments throughout the year hosted at various colleges and some hosted by Muhlenberg. Scotty Wood is a major event for the basketball teams, and draws a tremendous crowd every year bringing as much support and spirit as possible. All of the teammates and teams as a whole give 100% in everything they do, practice, games, and academics. The sports at Muhlenberg add a some extra spice to a liberal arts education.

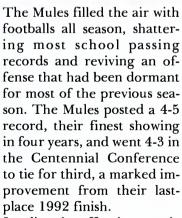

Head coach Fran Meagher with captains Rob Fritz, Joe Vecchio, and Mike Rubas.

Muhlenberg College 1993 Football

Leading the offensive parade were junior Rob Lokerson and senior quarterback Sean McCullough. Lokerson caught 76 passes for 1,275 yards to rank among the national leaders in catches per game and yards per game. He broke seven school receiving records, and with a season to go, is likely to put a few more under his belt. A strong All-America candidate, Lokerson caught 15 passes for 235 yards and three touchdowns in the Ursinus game.

The Mules' leader on defense was senior safety Mike Rubas. The unanimous All-Centennial Conference selection led the team in tackles, pass breakups, and interceptions.

The Mules placed eight players, the second-most in the conference, on the Academic Honor Roll. They were Fritz, McCullough, Rubas, wide receiver Chris Dinallo, linebacker Daryl Jones, safety Jacob Masenior and defensive lineman Joe Vecchio, all seniors, and junior defensive back A.J. Serina.

John D'Angelo brings down WM.

The Mules put of the pressure and tackle their opponents with ease.

The Men's Soccer Team lines up on the sideline before the game for the national anthem.

The Muhlenberg Men's Soccer Team is extremely competitive and always puts up a good fight.

Men's Soccer

The 1993 season began with a sense of tradition as Muhlenberg celebrated the 50th anniversary of the first men's soccer team. Along the way, the Mules began tradition and maintained old ones.

Although the Mules missed the NCAA Tournament for the first time in five years, Jeff Tipping's troops wound up 12-6 and tied for second place in the Centennial with a 7-2 mark. Muhlenberg won the Kwik Goal Classic for the second time, retained the Mayor's Cup by defeating Allentown and ranked as high as fourth in the Mid-Atlantic Region at one point.

For the second consecutive year, Tim Averill was the team's leading goal-scorer, knocking in eight balls to finish with 18 points. The sophomore found a spot on the All-Centennial Conference first team, where he was joined by senior co-captain Mick Sanders.

Also earning conference accolades was junior Eric Ervin, a second-team selection. Sophomore netminder Ron Moser was second in the Centennial Conference with a 0.94 goals-against average.

Muhlenberg pulls through with another victory.

The Mules attach to gain control of the ball.

On the defensive, Eric Ervin puts on the pressure.

Tyler Golembeski passes the ball, moving the Mules closer to a goal.

Field Hockey

Most collegiate athletic teams begin their seasons with a few non-conference games so they can work out their kinks before plunging into the league schedule. Unfortunately, the 1993 Muhlenberg field hockey team began its season by losing two Centennial Conference games right off the bat.

After finding their bearings, the Mules went undefeated in their last 10 games and finished with a 10-3-1 mark, their fifth consecutive season with double figures in victories. Included in that impressive streak were two wins against Division II teams in the East Stroudsburg Tournament. In the conference, Muhlenberg's 7-2 record was good for second place.

Eight of the first-year head coach Sue Murphy's players

were All-Centennial Conference selections. Three were second-team selections: junior midfielder Melissa Smull topped the squad with 15 points; senior midfielder Julie Schrader returned from a year off to post nine points; and junior forward April Poretta had her best season to date with nine points.

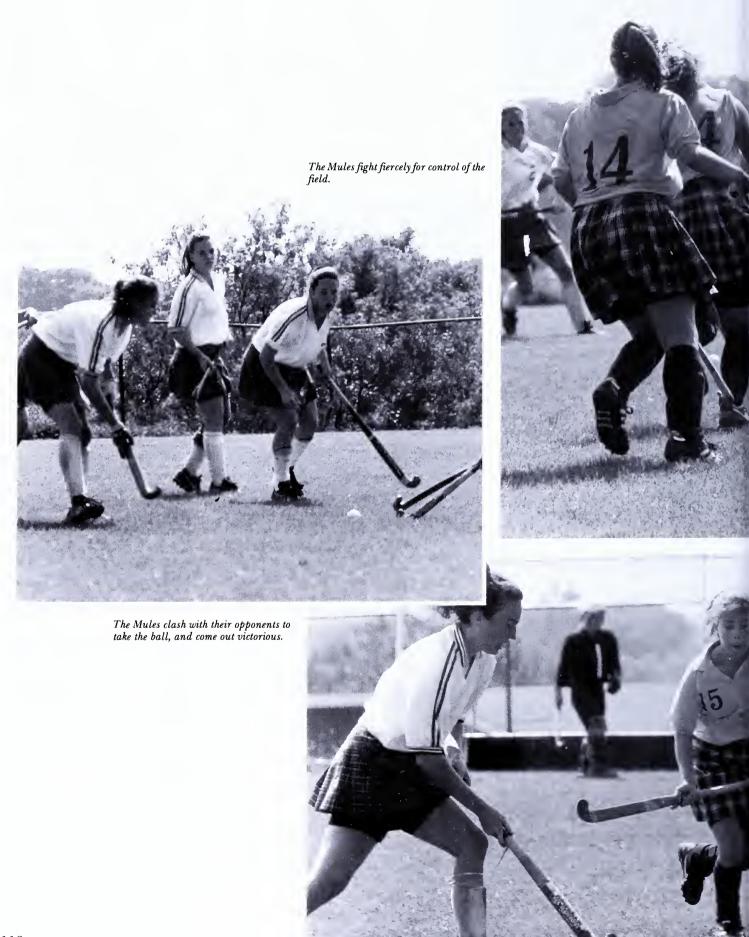

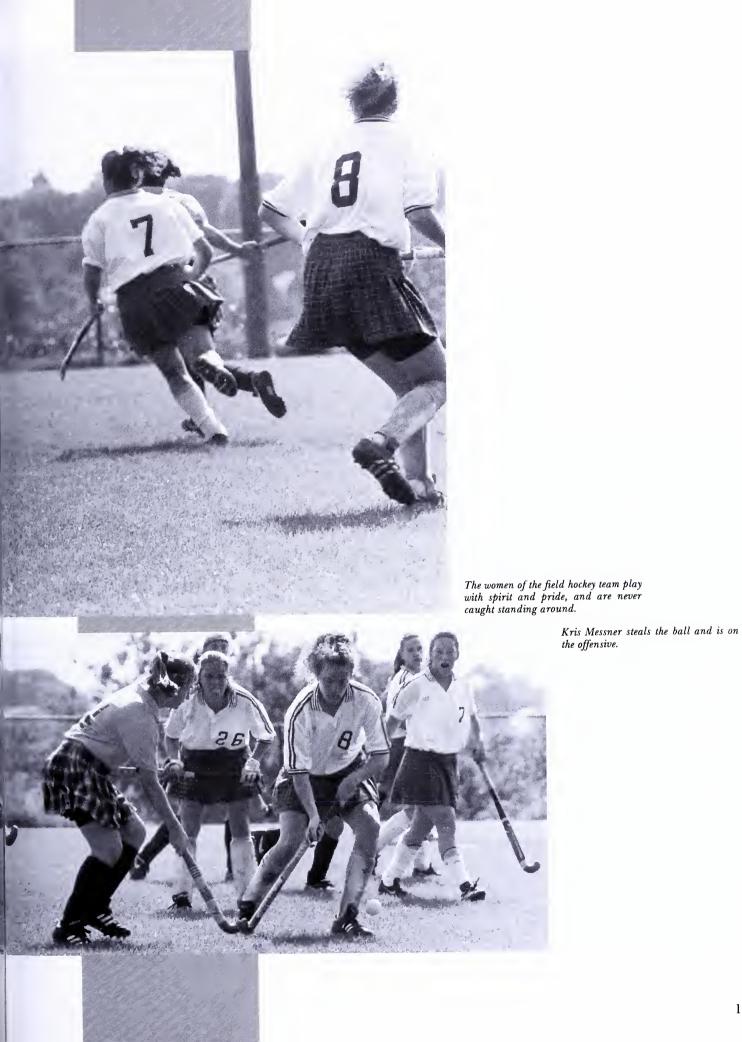

The field hockey team played with all the spirit and sweat needed to finish second place in their conference.

Volleyball

Sixth-year coach Frank Marino could boast some impressive numbers posted by his volleyball team. The Mules had a 20-4 record to reach the 20-victory plateau for the third consecutive season. More importantly, the team had an aggregate grade-point average of 3.4. Muhlenberg started the season on an incredible role, sweeping through the field at the Cedar Crest Tournament en route to an eventual

school record 11-match winning streak. The senior-dominated team finished fourth in the Centennial Conference with a 7-3 record.

Senior Linda Hicks was a strong force at the net again. The middle hitter led the league in blocks and was named to the all-conference second team.

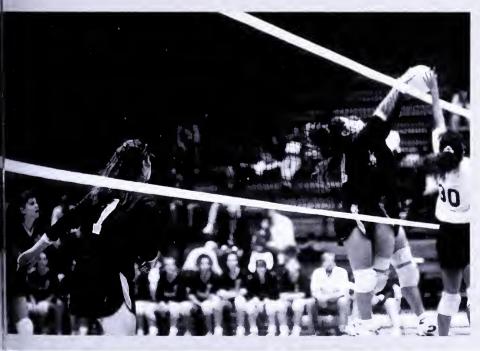

Hicks was bookended by a pair of Rhodes Scholar candidates, Kirsten Weber and Meredith Zawacki. We en an honorable mention settion, earned a spot on horegional All-Academic that and is eligible for national Academic All-Ameria honors.

With seven seniors grace ing from the squad, Man will have a busy offseaso in his attempt to keep houses at the level of such they have established during the last three years.

The 1993 volleyball seniors: Jen Hicks, Amy Albright, Amy Lette, Meredith Zawacki, Linda Hicks, Sue Bendinsky, Kirsten Weber.

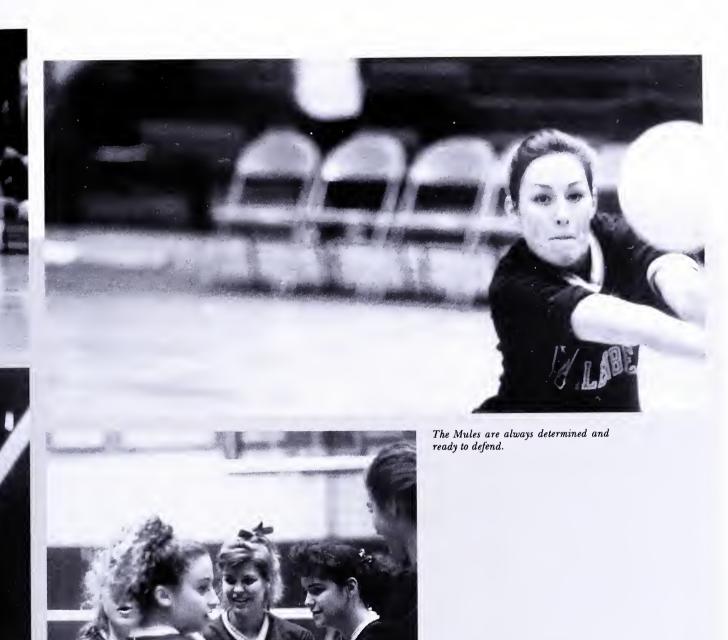

The Mules clash with their opponent in the air at the net.

The women of the volleyball team are ready for the serve, and ready to attack.

The Mules go for a block at the net.

The team discusses strategy before the game.

Men's Basketball

With key contributions from an expected source and an unexpected one, the men's basketball team went 14-11, won the first Centennial Conference East Division championship and earned the right to host a playoff game. And an exciting game it was, with the Mules pushing NCAA Tournament-bound Johns Hopkins into overtime before falling, 86-77.

The expected source was senior forward Dennis Ad-

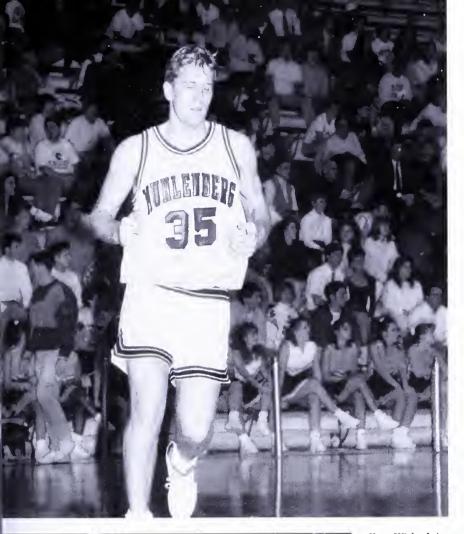

ams, who finished his stellar career as Muhlenberg's second all-time leading scorer. Honors poured in again for Adams: All-Centennial Conference, All-ECAC, All-District and honorable mention All-America for the second consecutive year. In January, he was named small college player of the week by Sports Illustrated after scoring 30 points in back-to-back games.

The unexpected source was junior swingman Mike

Gramer, whose midseas insertion in the starting liqup coincided with the Multsurge to the title. He earn second-team All-Conference honors. Other key plays for seventh-year head coan Dave Madeira were sen point guard Frank Altimi, senior swingman Matt Key and sophomore center Chs Bedell, who showed off sconsiderable dunking abties several times during to season.

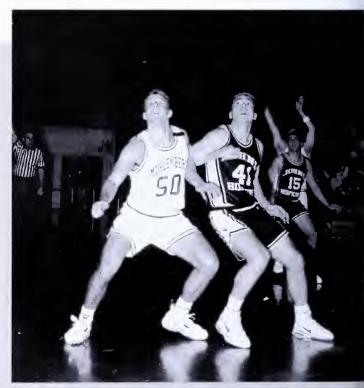

Matt Kelly leads the Mules out onto the court.

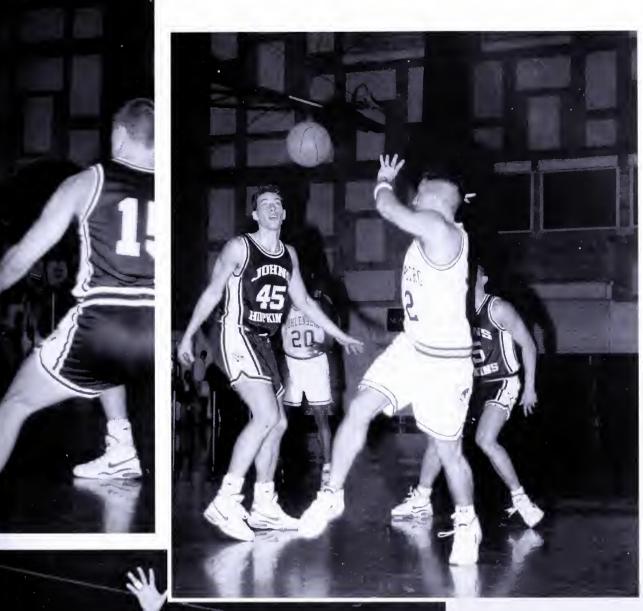

Kort Wickenheiser goes up for the rebound.

Kort goes in for the shot. . . and watches as it comes down.

Dennis Adams makes the shot despite the pressure being put on by the man covering him.

A flashback for the graduating players. . .

The Mules manage to control the ball and dominate.

Muhlenberg goes up for the shot before Hopkins has a chance to put on the pressure.

Women's Basketball

ne of the many cliches that akes the rounds in colleate coaching circles is "you on't," as in, "How do you place your school's all-time ading scorer and third allme rebounder?"

ou don't."

ell, if you're good, like the uhlenberg women's bastball team, you do, just not th one player. So it went in 193-94 for the Mules, who ade up for the loss of gradte standout Felicia Perman with a balanced attack

and shrugged off a slow start to finish 13-12 and qualify for the Centennial Conference playoffs.

Just 3-8 near the midpoint of the season, Muhlenberg reeled off nine wins in the next ten games, with the only loss coming by one point to East champion Ursinus. After finishing second in the division, the squad traveled to Dickinson for a playoff game, but came up on the short end of 86-56 final.

The Mules' balance showed

up all over the stat sheet. Six players averaged between 8.1 and 12.4 points per game, and all six registered games of at least 16 points. All 10 players scored at least eight points in a game. No player led the team in scoring for more than two consecutive games. The closest thing coach Karl Foerster had to a "top gun" was senior center Linda Hicks, and honorable mention Centennial Conference selection. She lead the team in both

scoring and rebounding and finished her career as the school's fourth all-time leading rebounder.

The only senior besides Linda Hicks, forward Denise Wunderler wound up her career as the school's sixth alltime leading rebounder. With two of his tallest players graduating, Foerster will be looking to recruit some forwards who can play right away and complement the good core of returning guards.

Linda and Denise are in under their opponents net ready to shoot and score.

Ellen Ogozalek attempts to take a shot while she's surrounded on all sides by Hopkins.

Lore Milot casually dribbles around her opponents and looks for an opening on the court.

Caroline Connelly makes the lay-up with ease.

Linda Hicks works on fighting over control for the ball.

Lori talks with her coach on strategy.

The Mules look to break out and get into their opponent's defensive zone.

Lori Milot breaks past Hopkins hoping to get a shot off.

Ellen Ogozalek goes up for the rebound.

Muhlenberg tries to pull ahead of Haverford.

Rebecca Free, dedicated and determined, holds strong in her event.

The Mules sustain a lead in front of their opponents.

Track and Field

The bulletin board in Memorial Hall proclaimed "Track Is Back!", and it was hard to argue that fact that the men's and women's track and field program headed in the right direction under first-year head coach Bill Donahue. Three athletes won Centennial Conference championships at the indoor and outdoor meets.

The women's team has a star in the making in freshman

sprinter Amy Moreland, whose exceptional season was curtailed by an injury in the spring. Moreland won the 400 meters in trackrecord time at the indoor championships to highlight Muhlenberg's third-place finish. She also set outdoor records in the 100 and 400. Senior Christina Wtulich also took home an indoor gold, winning the shot put. Despite problems with numbers, the men's team proved to be a competitive group, none more so than junior sprinter Chris Hall. The school record-holder in the 100- and 200-meter dashes. Hall won both events at the Centennial outdoor meet, becoming Muhlenberg's first two-event conference cham-

Muhlenberg competes in the hurdles against many competitive opponents at a Gettysburg meet.

pion ever.

#30 takes a bold lead, looking to steal second base.

Baseball

The baseball team only lost three key players, and had a very strong infield with senior first baseman Mark Shea and sophomore catcher Eric Fisher. The outfield was strong with senior Kevin Alansky, junior Matt Clifford, and sophomore Brian Croom.

Muhlenberg's schedule, including the Southern trip, lists 32 games, including seven doubleheaders. Strong opponents in the newly formed Centennial Conference were Johns Hopkins, Gettysburg and F & M. Other stiff competition was provided by Lehigh, Lebanon Valley and crosstown rival Moravian. Recent Southern opposition has been furnished by Division III powers

Christopher Newport and Virginia Wesleyan.

Team tryouts and practices are held indoors beginning in late January. The team moves outdoors after the Southern swing, practicing and playing at spacious Sammy Balliet Stadium, about six miles from campus. A squad size of 20 is maintained annually. Players spend spring break on the Southern baseball tour.

Baseball has been played at Muhlenberg continuously since 1922. The Sam Beidleman's 1982 club registered a school-record 19 victories.

The Mules look-on as the batter swings and makes contact.

And the Mules take the field. . .

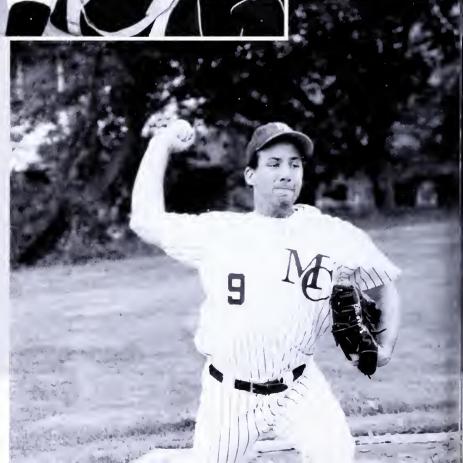

Mark Waddell digs in and throws a perfect strike.

The Mules go for the bunt and take off for first base.

The catcher bears down and is ready for the pitch.

Her eye is on the ball and she makes a great cut.

Softball

The Muhlenberg College softball team is the defending Middle Atlantic Conference champion under coach Tom Doddy. The Mules returned all but two players. In softball's 15-year history, the Mules have won five MAC Southern Division championships, eight MAC Southeast league titles and three overall MAC championships in 1989, 1991 and 1992. Divisional titles are no longer awarded due to the Conference of the

ence's new doubleelimination format.

In 1989, the Mules earned the distinction of becoming the first Muhlenberg team in any sport to advance to national play since formation of NCAA Division III in 1973. Muhlenberg received NCAA tournament bids in 1989, 1990, 1991 and 1992.

The softball team is organized in January and works out in the spacious campus field house until the weather permits outside practices. A 15-date regular season with 14 doubleheaders opens in mid-March and continues throughout April. Playoffs are in early May. In addition to Centennial Conference opponents Western Maryland, Dickinson, Washington, Swarthmore, Gettysburg, F & M and Ursinus, the Mules play with Moravian, Kutztown, Monclair State, Rowan and Trenton State.

The Mules field the ball and make a successful play.

The Mules take the softball diamond to warm up.

The Mules' catcher stops everything that comes her way to help put the pressure on Moravian.

The Mules' coaches, Moravian, and the batter wait for the pitch and some action.

A powerful throw to first base. . .

Slightly unsure of herself, she makes an excellent return unreachable by her opponent.

Men's and Women's Tennis

The men's tennis team has a difficult spring, but did manage to end on a positive note, defeating Western Maryland and Allentown in its final two matches to wind up 2-9. A tough schedule that featured the Centennial Conference's top teams at the beginning of the season contributed to the slow start.

Sophomore transfer Claude Rich competed at No. 1 singles and doubles the whole season and played his best tennis toward the end of the campaign. He won four of his last five singles matches, including one at the Centennial Conference Individual Championships. Rich also teamed with senior captain Dave Skutches for a 3-1 doubles record. Skutches ended

his career with 28 victories. Other netmen who distinguished themselves for head coach Fran Meagher were senior Mark Hooshmand (3-0 at No. 5 singles) and freshmen Paul Lee (4-5 at No. 6 singles).

Not Surprisingly, the Muhlenberg women's tennis team, which had won 10 MAC Northeast titles in the last 11 years, found things more challenging in the competitive Centennial Conference. Still, Linda Andrews' squad managed a 4-7 overall record.

Both seniors on the team finished their careers with nonlosing records. Susan D'Ambrosio went 3-4 at No. 2 singles in 1994 and ended up 20-16 at singles and 23-23 overall. Meredith Friedman posted a 6-2 record in Centennial Conference singles play and reached the 30-win mark for her career, finishing at 30-28.

Sophomore Elyssa Deutsch had the most singles wins (eight) and reached the quarterfinals of the Centennial Conference Individual Championships. Junior Jen Rotondo was 5-3 at No. 1 singles. The doubles team of sophomore Lara Beatus and junior Whitney Heaton was 6-3 in Centennial Conference play and won four consecutive matches in one strech.

Men's tennis had a tough season, but they hung in there and were always playing with all of their hearts.

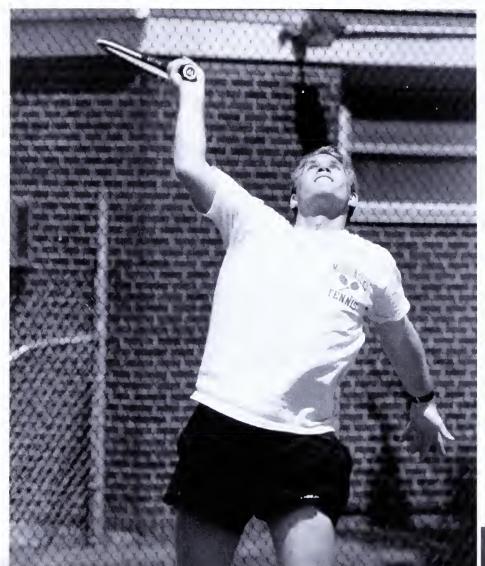

Mark Hooshmand comes crashing down with a rocketing serve.

In mid-air, a firing return is made.

Concentration is evidently required for an ace.

Another fabulous serve from the Mules.

The Women's Tennis Team on the courts outside of the the Muhlenberg Life Sports Center.

Good form is shown and the return is about to be made with great skill.

Ready for the pass . . .

Lacrosse is a very exhilarating and rough game, but all of the women on the team are ready to give 100%.

The Mules are on the move and nothing will stop them from taking the game into their hands.

Women's Lacrosse

The Women's Lacrosse Team started the season with a win and finished with a win, but had a long dry spell in between and ended up 2-10. That was the bad news. The good news was that there were no seniors on the team and nine first-year players, so the improvement shown over the course of the season could only pay off dividends

for some time.

Sophomore Megan DiPanni, though slowed by an injury, continued her march to the school's scoring records. The second-team All-Centennial Conference selection led Muhlenberg with 26 goals in as fourth on the all-time scoring list after only two seasons.

Sophomore Rachel Stein-

brook played a variety of roles exceptionally for second-year head coach Sue Murphy, including distributor. She set a school record with 11 assists and tied a school mark with four in one game. One of her targets was Maddie Lee, who scored 24 goals, the second-highest total ever for a Muhlenberg freshman.

The Mules dig for a ball that is up for grabs.

A pass is about to be received by the Mules if they can avoid the interception.

The two teams confront each other in full force at the face of the net.

Lacrosse is a very skillful game, requiring good stick-handling and handeye coordination.

Success pitching out of the sand trap... Concentration and with a very precise

Concentration and accurance is seen with a very precise putt.

Jon Sorger tees off and exhibits a powerful drive.

Golf

The golf team began the season with several "handicaps": Lehigh Country Club, the Mules' home course, was under renovation, so all the matches were on the road, and the horrible winter forced numberous postponements and cancellations and made outdoor practices impossible until late in the season.

Once they got started, the Mules managed a 7-8 record for fifth-year head coach Ralph Kirchenheiter and a fifth-place finish in the inaugural Centennial Conference Tournament.

The only senior on the team, Scott Runyon, finished his career with the third-best average of any senior in the last five years. He was in fourth place after the first round of the Centennial meet before slipping to eleventh. Sophomores Chris Silvaggi and Kris Lehman posted the second- and third-best stroke averages on the team, respectively, with Lehman finishing eighth at the conference match.

with a rough start to the season, cammates were still able to have a time and keep smiles on their faces.

Wrestling

With more than half of the starting squad returning from the Muhlenberg wrestling team that set the school record for winning percentage in 1992-1993, Jim Carls was optimistic heading into his first year as head coach. That optimism proved to be

well-founded. The Mules had perhaps the best season in school history in 1993-1994, re-setting the winning percentage mark, finishing second in the inaugural Centennial Conference Tournament and sending three wrestlers to the NCAA Championships in Stevens Point, Wis.

Muhlenberg breezed

through the regular season with a 9-1 record, losing only to nationally ranked Delaware Valley. The Mules' biggest win was a two-point victory over conference archrival Ursinus in their only home meet.

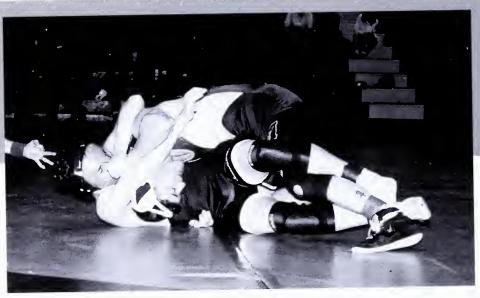

At the Centennial meet, Muhlenberg was hurt by a lack of depth and fell to host Ursinus by 4.5 points despite having a league-high four weight-class champions: sophomore Pete Shimkin at 118, freshman A.J. Bucko at 126, sophomore Joe Reuben at 134 and freshman Dan Terpstra at 190.

The following weekend, Muhlenberg traveled to Elizabethtown College for the East Regional Qualifier. The Mules had not qualified a wrestler for the NCAAs in seven years, but that changed with the first championship final. Trailing entering the second period, Shimkin caught is opponent off guard and recorded a pin just 27 seconds into the frame to earn a trip to Wisconsin.

Shimkin got a traveling partner later in the afternoon when Terpstra pinned his opponent in the second period. The third Mule representative at the nationals was 158-pound senior Tom Gulick, who received a wild-

card berth despite finishing fourth in his class.

Both Shimkin and Gulk were eliminated from le NCAA Championships a er two bouts, but Terpstra cacluded his remarkable rocie campaign by coming with one win of earning Il-American status. Terps a was only 4-7 at one poin n the season, but caught firen time for the postseason tornaments and finished 19 with a team-leading 12 ps. Gulick, the only senior n the team, wound up his cceptional career with an)-15 record.

Muhlenberg has its opponent down for the count.

Always coming out on top of things, the Mules had an excellent wrestling season as a whole and individually.

Anticipation is written all over this athlete's face, ready to pin his opponent as quickly as possible.

Locked up for the moment, the Mules will soon have their opponents in the defeated position.

WMUH is a very active organization on campus. The station plays a huge variety of music and is a great means for other organizations to communicate to the Muhlenberg community.

The Jefferson/Muhlenberg Partnership provides relaxing and fun opportunities for the Jefferson School children and the Muhlenberg students.

Activities

The activities and organizations at Muhlenberg College are a wonderful way to get involved with the other students, the administration, and with the community surrounding Muhlenberg. Almost all of the campus organizations are funded by Student Council and are open every member of the Muhlenberg community. From Student Council to the literary publications to the Young Republicans to the Islamic Awareness Club, there is an organization for every student. The clubs are all very active as a whole, and have rather large membership lists. Many organizations provide activities for everyone to participate in, both social events and educational events. On many occasions, speakers are invited by groups, such as the John Marshall Pre-law Society and the Pre-med Society, to provide an opportunity for the Muhlenberg community to interact on a more intimate level with people in professional fields. MAC plays a major role on campus, growing every month under the presidency of Carolyn Harter, providing more social events on campus, such as professional comedians and movies.

The walkway from Shankweiler to Trumbower is an ideal place for organizations to hang sheets advertising upcoming functions.

Campus Christian Fellowship

Campus Christian Fellowship is a nondenominational fellowship which has been a club at Muhlenberg since 1986. The group has steadily increased in membergship over the past four years and has added various new activities for its members. Every Friday we have a time of praise sining, prayer and a study of God's Word

through the guidance of speakers from the local Christian community who some to speak on campus. Throughout the week there are at least five active Bible Studies. Prayer meetings are held three days a week in which we specifically pray for our campus, personal concerns and world issues. Throughout the year there

are also the opportunities or any student to attend our anual winter retreat, spasored by C.C.F., training conferences and a week of camp, both of which a sponsored by Disciple Moers. Our desire as a felloship is to love and serve contained and to share the local of Christ with those around us as we seek to glorify Gol.

It seems to be a lesson in personal hygiene that everyone is enjoying.

All of the C.C.F. members gather together for both social interactions and spiritual expression.

C.C.F. has been the catalyst for very close and supportive friendships.

The Pre-Med Society

The Pre-Med Society, which started in the spring of 1993, has acquired over 140 members from all four classes. The society was started to provide information and guidance for students wishing to pursue a career in medicine.

Information about medical school and assistance in the decision-making process has been provided to the students in a number of ways. The Pre-Med Society has invited numerous speakers to come to Muhlenberg and speak to the students. These speakers include doctors from various specialties, ad-

mission officers from medical schools, and medical students. To include an even closer look at medicine, the Day with a Doctor Program has been implemented. Trips wo medical and osteopathic schools, including the Medical College of Pennsylvania and Philadelphia College of Osteopathic Medicine, have also given students a flavor of what they may expect in the future.

In respect to those institutions implemented to aid students in preparing for medical school, free practice MCAT tests have been installed through the Kaplan company.

As of the spring of 1994, the society is currently pursuing the creation of a new chapter of Alpha Epsilon Delta, the National Pre-Med Honor Society.

The Pre-Med society would like to give special thanks to our new advisor, Lori Provost. She has offered nothing but helpful, insightful, and knowledgeable information to those who have sought her assistance and guidance. We are extremely grateful for her hard work she has put forth for our benefit.

Officers:

Todd Morehouse — President Amy Paiva — Vice President Marc Beeber — Treasurer Denise Wunderler — Secretary

The John Marshall Pre-Law Society

The John Marshall Pre-Law Society is steadfastly becoming prominent on the Muhlenberg Campus. This organization is interested in educating those interested in the legal field as well as the entire campus. In addition, the Pre-Law Society has provided a forum for the discussion of legal issues which affect our lives.

In keeping with the purpose, the members continued the annual tradition of going to New York City for the Law School Forum. This trip, taking place in the Fall, has always proven beneficial for it allows students to speak with representatives of almost all

of the accredited law schools in the U.S. In the Spring, the society took a trip to Washington D.C. to further the education of its members, as well as the Muhlenberg community with their experiences, concerning the Nation's law making organizations.

In addition to these excursions, the society holds many functions on campus. These meetings include speeches and discussions led by local attorneys and judges, as well as advice from graduating law students.

With a strong foundation, the Pre-Law Society will continue to prosper.

Muhlenberg College Republicans

Founded by a circle of friends during the 1992 presidential campaign, Muhlenberg's chapter of College Republicans has since served as an effective counterweight in the ongoing campus debate. In the past, club members have been in the studio audience of The Rush Limbaugh Show, raised

money for various community service causes, and volunteered in election campaigns. With the Young Democrats, the club has also sponsored public forums on a slate of controversial issues. College Republicans, which recently celebrated its centennial, is America's oldest youth political organization.

Members seen here are (L. to R.): First Vice-Chairman Chris True, Second Vice-Chairperson Carolyn Hallman, Daryl Brown, Treasurer Chris Keep, Secretary Aaron Goach, and Chairman Ryan Ing. The club's advisor in Dr. Alton Slane of the Department of Political Science.

The Business and Economics Club

Chartered and funded by Student Council, the club was founded to promote the continued study and understanding of issues in the world of commerce. In November 1993, members traveled to Wall Street for a guided tour of the New York Stock Exchange. While in Manhattan, the group also visited CS First Boston financial bank. In the past, the club has taken tours of Bethlehem Steel, Mack Trucks, and Stroh's Brewery, and has hosted numerous speakers from various areas in busi-

ness and industry. Members pictured here are (L. to R.): Vice-President Amy Gitlitz, Secretary Natalie Karaskevicus, and President Aaron Goach. The club's advisor is Dr. Donna Kish-Goodling of the Department of Economics.

Student Ambassadors for Alumni

Students can be involved with the Alumni Office and the Alumni Association while they are still on campus through Student Ambassadors for Alumni (SAA). This group of dedicated Muhlenberg students strives to promote interaction between alumni and current students.

SAA members realize that the years students spend on campus signal the beginning of a lifelong relationship with the College. By serving today, SAA members are providing the link between Muhlenberg's past and future, while preserving a sense of campus pride and tradition. Activities sponsored by SAA include: the Homecoming Parade, the Homecoming Pep Rally, the Photo Scavenger Hunt, the Senior Class Champagne Brunch and various other activities throughout the year.

MAC: Muhlenberg Activities Council

MAC's president, Carolyn Harter, throws on her jacket and rushes out to class after coordinating the up-coming events for the Muhlenberg community.

Islamic Awareness Club

International Students' Association

Business

The business section gives family, friends, campus organizations, and local businesses to show their support for Muhlenberg College, Muhlenberg students, and most of all Muhlenberg graduates. Families are extremely supportive of their Muhlenberg students, and are more than willing to show their pride in Muhlenberg. Muhlenberg offers a tremendous liberal arts education to the students that attend the college, and is very deserving of the support, pride, and tradition. The Muhlenberg students are all equally deserving of the support for their hard efforts and excellent academic record. Student organizations, like MAC and Ciarla, were given an opportunity to show their spirit for the first time in the Muhlenberg Yearbook. With all of the patrons, the yearbook is given a very personal touch from those wanting to display all that they feel for the Muhlenberg Community.

Best Wishes to Aunt Heater. from Benjamin + Jacob

TO SAM,
DOUG,
C A R Y N ,
KATE,
GREG AND

Out in front of East Hall, upperclassmen are taking a study break and enjoying some sun.

Closing

Many things happened on Muhlenberg's campus this year, but we cannot forget the world around us. Around the world, time is moving at a very rapid pace and it is hard to keep up sometimes. Our own country went through several natural disasters and some man-made disasters like the World Trade Center bombing. California was devastated with an earthquake and fires, and the Midwest was literally under water. Across the Atlantic, we observed attempts to find peace, but we also continued to see fighting in areas such as Bosnia. 1993 and 1994 saw many new reforms attempts within the United States, an attempted coup in Russia, and another winter olympics. For everyone in the Muhlenberg community, this past year was full of change and compromise.

1993 — 1994 World Events

Arrested Development won the MTV Video Music Award for best rap video, "People Everyday," and the Grammy Award for "newcomer of the year."

The show started off as an upstart, but by the time they finished handing out the prime time Emmy Awards on Sept. 29, 1993, "Seinfeld" was a member of the sitcom Old Boys Club.

At 4:31am on Monday, January 17, 1994, an earthquake of 6.6 magnitude struck Southern California, claiming 61 lives and leaving damage that may total \$30 billion.

Twenty six fires that swept Southern California in the Fall of 1993 left four people dead and caused at least \$1 billion in damage.

The floods that washed across the Midwest may have been the worst in American history, and they captured the concern of people across the nation.

On a sunny Monday, Sept. 13, 1993, three American presidents gawked in awe, just like everyone else, at a sudden turn towards peace between Yassar Arafat and Yitzhak Rabin.

When Sheik Omar Abdel-Rahman was charged on August 25, 1993, with commanding "a war of urban terrorism" in New York City, he was already one of the most unpopular figures in the United States.

The civil war in what was once Yugoslavia moved through its second year at terrible human cost: as many as 200,000 people were dead or missing, including 10 United Nations relief workers who had died by October.

esident Clinton's point man on health re reform in 1993 and 1994 was his fe, First Lady Hillary Rodham Clin-

Colophon

Volume 102 of Muhlenberg College's Ciarla, 1994 edition, was printed by Taylor Publishing Company, 1550 West Mockingbird Lane, Dallas, Texas. Representing Taylor Publishing, Ed Patrick, Jr. served as our local representative and Melody Lundquist as out customer service advisor.

The cover was designed originally by Daniel Halewicz, Ciarla Editor-in-Chief, and revised by Mark Murphy in the Taylor Publishing art department. The cover is a special design on lithocote with a stamped foil. All of the lettering is a gold foil and the predominant background is maroon #36. Behind the "C" of Ciarla is a 4-color marble square, and along the front left side running vertically is a paper texture background. The front and back endsheets are the solid color tanpar. Paper stock of 80lb. enamel was used throughout the entire book. All headlines are 30/30 seville bold italic; body copy are 10/12 seville; captions are 8/9 seville italic; panels are 8/9 seville bold; and folios are 10/10 seville. All layouts were done using a 16 column method and designed by Daniel Halewicz.

Senior portraits were taken by Davor Photography Inc., 654 Street Rd., Bensalem, Pennsylvania, as well as many candids. Davor's representative to Ciarla was Mark Huff. Several photos in student life were supplied by the Muhlenberg Weekly's Amanda Peters and Amy Hill. Photos also appearing in student life were taken by Thomas F. Amico. and Commercial Color. Photos and copy in the sports section were supplied by Mike Falk in the Public Relations Department of Muhlenberg College. The world event photos were supplied by World Wide Photo, Inc.

Volume 102 of Ciarla is 208 pages in length. 400 copies were ordered, 340 for the graduating seniors and 60 ordered by underclassmen for \$35 each for the first time in the history of Ciarla. The total publishing costs for the 1994 Ciarla were approximately \$20,000. All layout and copy work was down using TotalVision by Taylor Publishing. The office of Ciarla was on the third floor of 2208 West Chew Street for most of the academic year and was moved into the basement of Prosser Hall during the summer of 1994. The office telephone number is (610) 821-3237 and the fax number is (610) 821-3277. All correspondence should be sent to Ciarla, Box 2762, Muhlenberg College, Allentown, PA 18104-5596.

A Note from the Editor-in-Chief

A yearbook is a symbol of school spirit, school pride, and, most of all, school tradition. The Ciarla is a major part of the backbone holding Muhlenberg College's tradition in place. Without a yearbook many of the students', faculty's, and administration's fondest memories would be lost. The main goal the Ciarla staff set was to make the yearbook incorporate all aspects of the Muhlenberg community. Unfortunately, many of the student run organizations and none of the fraternities or sororities were put into this volume of Ciarla due to a lack of interest on their part, mis-communication, and bad weather. On behalf of Ciarla, I apologize for not meeting our goal, however in order to produce an excellent yearbook cooperation is required from everyone on campus. I would like to first thank the Muhlenberg Student Council and Finance Committee. Without their help, notably Mike Doyle, Jr., Stephanie Sinisko, and Jeff Silsbee, along with Dean Nestor, Volume 102 of Ciarla would not have been published. I would also like to thank Lina Striglia and the Public Relations Department for all of their tremendous support, and Becky Grace of the Residence Life Department. Thanks goes out to Ed Patrick, Jr. for all of his help in showing me the ropes this first year. Both the Ciarla Treasurer, Chris Baylor, and Underclassmen Editor, Stephanie Weintraub, gave more than most in producing the book. I also would like to thank President and Mrs. Taylor for their help and insightful encouragement. Special thanks goes out to CCF, the Pre-med Society, the Pre-law Society, the College Republicans, the Business and Economics Club, SAA, MAC, ISA, and the Islamic Awareness club for their efforts in providing material for an activities section. Special thanks also is needed for all of the parents and patrons found in the business section. Finally I would like to thank my family, Diana Kayal, Carolyn Harter, Gerry Coleman, and the rest of the Muhlenberg community for their support.

Daniel Halewicz Editor-in-Chief
